Regulation of Biological Control Agents - ResearchGate

This book presents a comprehensive compilation of registration requirements necessary for authorisation of biological control agents (viruses, bacteria, fungi, active substances of natural origin

Regulation of Biological Control Agents | SpringerLink

This book presents a comprehensive compilation of registration requirements necessary for authorisation of biological control agents (viruses, bacteria, fungi, active substances of natural origin and semiochemicals) in OECD countries. It also reviews data requirements for invertebrate agents (insect, mites and nematodes) and provides proposals for harmonisation of the regulation process and

Regulation of Biological Control Agents | NIHS Academic ...

Regulation of Biological Control Agents is the result of the Europe-wide, two-year policy support action REBECA, a forum for representatives of academia, regulation authorities and biocontrol industry to discuss improved regulation rules. It provides a comprehensive review on existing data requirements and registration procedures. Risks and benefits of biocontrol in relation to trade-off effects resulting from unbalanced regulation are discussed.
